$1000 Reward for Proof of the Existence of a Better Liniment than Merchant's Gargling Oil.

ANNOUNCEMENT FOR 1884.

THE publishers of the Buffalo City Directory for 1884 have reason for believing the book they now present the most complete and accurate yet issued in this city. Its enlargement is in keeping with and evidence of the very rapid growth of Buffalo in the new era of prosperity which she has attained. In the preparation of the book many difficulties inseparable from the work have been encountered, and the vast increase of names has made the undertaking of greater magnitude than ever before, added to which the changes of business and residence locations, many of them late in the canvass, have been perplexingly numerous; but the work has been prosecuted with an earnest determination to obtain the best possible results, and while conceding that perfection in a directory cannot be had, it is confidently expected that the volume will satisfactorily fill its designed place as a public convenience. In beauty of typography and finish it will assuredly compare favorably with any similar production in the country.

All the usual departments have been carefully revised, and enlarged by the addition of new features, and new departments have been made, enhancing the value of the Directory as a book of reference and comprehensive guide to the Queen City of the Lakes.

The past year in Buffalo has been one of general success in all branches of business. No heavy mercantile failures have occurred; new and important business enterprises have been established, and the material growth of the city is exhibited in

Merchant's Gargling Oil, the Standard Liniment of the U. S., is good for Man and Beast.

the thousands of substantial structures that have been erected. A marked influence in giving impulse to business is to be noted in the enlarged usefulness of the Merchants' Exchange, incident upon the completion and occupancy of the Board of Trade Building. It has centralized the financial and mercantile interests of Buffalo, and, while not promising to depart from the conservatism in business matters which has made Buffalo a "solid" city, it promises to give momentum to future trade. The railway, coal and iron interests, have greatly increased, and brought in their train a large and valuable addition to the capital and population of the city. Manufacturers have generally prospered, and Buffalo enters upon a new year hopeful of still more marked expansion. There is every indication that the next Buffalo City Directory will show a still larger increase in population than that so gratifyingly shown in the present volume, which contains an increase of 175 pages of names over the exhibit of 1883, the whole number of names being 68,676. This, in the very low ratio of 3¼ persons to each registered name, gives a population of 223,197, and Buffalo may reasonably claim, with her floating population, a quarter of a million of inhabitants.

$1000 Reward for Proof of the Existence of a Better Liniment than Merchant's Gargling Oil.

BUFFALO

STREET AND AVENUE DIRECTORY

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur. The streets in the city were renumbered in 1868, and the following method was adopted, to wit: From the starting point of the street, measuring along the line of the street twenty feet; then making No. 1 to the right-hand side, and No. 2 to the left-hand side, and so on, each twenty feet, whether there be a building or a vacancy or a street crossing. The number on one corner has been given, so that a person wishing to find, say, 499 **Main Street,** on consulting the Street Directory, finds that the right-hand corner of Main and Mohawk is No. 487, consequently, the place he seeks is only a few doors above.

RATES OF POSTAGE.

First Class.—Letters, and all other written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, two cents per half ounce or fraction thereof. Postal cards one cent each. Postal cards are unmailable with any writing or printing on the address side, except the direction, or with anything pasted upon or attached to them.

$1000 Reward for Proof of the Existence of a Better Liniment than Merchant's Gargling Oil.

On local or drop letters, at offices where free delivery by carrier is established, two cents for each half ounce or fraction thereof.

Second Class.—Only for publishers and news agents.

Third Class.—Printed matter, in unsealed wrappers only (all matter inclosed in sealed envelopes notched on the sides or corners must pay letter rates), one cent for each two ounces or fraction thereof, which must be fully prepaid. This includes books, circulars, *chromos*, hand-bills, *engravings*, *lithographs*, magazines, music, newspapers, pamphlets, *photographs*, proof-sheets and manuscripts accompanying the same, reproductions by the electric pen, hektograph, metallograph, papyrograph, and, in short, any reproduction upon paper by any process, except handwriting and the copying press, not in the nature of a personal correspondence. Limit of weight four pounds, except for a single book, which may weigh more. Third-class matter must be fully prepared or it will not be forwarded.

Fourth Class.—All mailable matter not included in the three preceding classes which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. Rate, one cent per ounce or fraction thereof. Limit of weight four pounds. Full prepayment compulsory.

Postal Cards.

The postage of one cent each is paid by the stamp impressed on these cards, and no further payment is required. The address may either be written, printed or affixed thereto, at the option of the sender. Anything else attached in any way to a postal card subjects it to letter postage.

Postal Rules.

By act of July 12, 1876, "the sender of any article of third-class mail matter may write his or her name therein, or on the outside thereof, with the word 'from' above or preceding the same; or may write briefly or print on any package the number and names of the articles inclosed." This privilege cannot be held to include the price of such articles, or any writing other than above specified.

A subscriber cannot re-mail his paper to another without prepayment of postage at transient rates.

Postmasters cannot deliver from their respective offices letters addressed and deliverable from other offices, except in case of letters addressed to discontinued offices nearest the office where such letters are held for delivery.

Money should not be inclosed in an ordinary letter.

Valuable letters should be carried to the Post-office and registered. If money is to be remitted, a Postal Money Order should be obtained.

Money and other valuables sent by mail are at owner's risk.

Head letters with the name of the writer's Post-office and State, street and number. Sign them with full name, and requests that answers be directed accordingly.

It is the duty of the Postmaster at the mailing office, as well as the office of delivery, to carefully examine all printed matter, to see that it is charged with the proper amount of postage, and to detect fraud.

When publishers inclose hand-bills with their newspapers in violation of the law, the Postmaster is required to rate up such packages with letter postage according to the weight of the same, and, if not paid by the party addressed, to return them to the mailing office to prosecute the sender in the penalty of $5 in each case.

No extra postage charge is to be made for a card printed or impressed upon an envelope or wrapper.

The law limits the weight of packages to be sent by mail to four pounds, except books issued by order of Congress.

The persons entitled to receive letters by mail are those whose names are in the address, and delivery should be to the person addressed, or according to his or her order.

Letters addressed to a party deceased can only be delivered to his legal representatives.

Letters addressed to a firm may be delivered to any member thereof.

Drop letters can only be forwarded upon the prepayment of one full letter rate of postage.

Pamphlets and books cannot be returned at the request of the writer without prepayment of postage. The privilege is confined to letters.

The Following Articles are Unmailable.

Letters which cannot be forwarded to their destination by reason of illegible or unintelligible superscription.

Letters upon which one full rate of postage has not been prepared, and those covered by revenue stamps, by stamps previously used, or by stamps cut from stamped envelopes, and packages which exceed four pounds in weight.

Letters insufficiently paid or wholly unpaid for foreign countries, on which prepayment is required in full.

Letters to Europe and other foreign countries belonging to the International Postal Union, which contain gold or silver, money, jewels or precious articles, or any article liable to customs duty.

All letters upon the envelope of which, or postal card upon which obscene, scurrilous or abusive epithets have been written or printed, or disloyal devices printed or engraved, and letters or circulars concerning illegal lotteries, so-called gift concerts, or other similar enterprises offering prizes or concerning schemes devised and intended to deceive and defraud the public. Also, all obscene, lewd or lascivious books, pamphlets, pictures, papers, prints or other publications of an indecent character.
